Marion L. Shepard Cancer Center

Lifestyles Medical Fitness Center

Please make checks payable to the Shepard Cancer Foundation

Inspired by Cancer Center Staff

What makes the Marion L. Shepard Cancer Center so highly regarded is the warm, intimate, family atmosphere. The staff at the Cancer Center has the unique ability of being able to make having cancer and receiving treatment bearable.

Our focus at the Shepard Cancer Center is centered not only on the treatment of cancer, but also the aspects of everyday life of our cancer patients. One avenue that helps us accomplish this goal is through a variety of programs and services to help those touched by cancer to deal with the financial, emotional and physical challenges associated with this disease.

Shaggin' for a Cause was created in 2007 to raise money to help fund programs and services that would directly and positively impact the lives of our patients. Contributions to Shaggin' for a Cause help friends, family and neighbors in your community. Donations are used to help patients pay for their much needed medications, provide transportation for those who are unable to get to the Cancer Center for treatment, as well as helps patients receive PET scans who would have otherwise been unable to have this invaluable screening. In addition, contributions have helped patients pay for utility bills, dental visits and medical supplies.

The staff of the Shepard Cancer Center is inspired daily by their patient's strength and positive attitude in their fight against cancer. Please help us help improve the lives of our patients!
